

EHS Incident Management

Printable Forms Package

Complete data collection forms for field use — all options listed as checkboxes for manual recording. Compliant with OSHA 300/301 (US) and RIDDOR F2508 (UK) requirements.

Version 1.1 — May 2026 **UPDATED**

*Changes from v1.0: Added "Object/substance that directly harmed" field (OSHA 301 Field 17), "Date of death" field, "Employment status" field (RIDDOR), and new Chapter 10: Dangerous Occurrence Report Form (RIDDOR Schedule 2). New/changed fields are marked with **[NEW]** throughout.*

Chapter 1: Injury Report Form

Chapter 2: Illness Report Form

Chapter 3: Near-Miss Report Form

Chapter 4: Property Damage Report Form

Chapter 5: Environmental Release Report Form

Chapter 6: Unsafe Condition Report Form

Chapter 7: Observation Report Form

Chapter 8: Investigation Form

Chapter 9: CAPA (Corrective & Preventive Action) Form

Chapter 10: Dangerous Occurrence Report Form **[NEW]**

Appendix A: OSHA 300 Log Reference

Appendix B: RIDDOR Reportable Events Reference

Organization: _____

Effective Date: _____

Chapter 1: Injury Report Form

OSHA 301 & RIDDOR Compliant — For recording work-related injuries

** Fields marked with (OSHA) are required for OSHA 301. Fields marked (RIDDOR) are required for UK RIDDOR F2508.*

Organization: _____ Site/Location: _____
Date: _____ Time: _____
Report # (INC- ____ - ____): _____ Reported By: _____

Injured Person Information (OSHA 301 — Section A)

Full Name (OSHA): _____ Employee ID / SSN: _____
Date of Birth (OSHA): _____ Job Title (OSHA): _____
Department: _____ Hire Date: _____
Supervisor Name: _____ Home Address (RIDDOR): _____
Employment Status (RIDDOR) [NEW]: _____

[NEW] Tick one:

- ☐ Employee [NEW] ☐ Self-employed [NEW] ☐ Member of the public [NEW]
☐ Contractor / agency worker [NEW] ☐ Volunteer / trainee [NEW]

Incident Location

Site/Plant: _____ Building/Area: _____
Specific Location: _____ Department: _____

Date & Time of Injury (OSHA 301)

Date of Injury: _____ Time of Injury: _____
Date Reported: _____ Shift: _____
Shift at Time of Incident

- ☐ Day Shift ☐ Evening Shift ☐ Night Shift ☐ Rotating ☐ Overtime

Incident Description

Describe exactly what happened, step by step. Include what the employee was doing, what tools/equipment/materials were involved, and how the incident occurred. (Minimum 50 words)

Chapter 1: Injury Report Form (continued)

Body Part Affected (tick all that apply — OSHA 301 / RIDDOR)

- | | | |
|---|--|--|
| ☐ Head / Skull | ☐ Face | ☐ Eye (Left / Right) |
| ☐ Ear (Left / Right) | ☐ Nose | ☐ Mouth / Teeth / Jaw |
| ☐ Neck | ☐ Throat | ☐ Shoulder (L / R) |
| ☐ Upper Arm (L / R) | ☐ Elbow (L / R) | ☐ Forearm (L / R) |
| ☐ Wrist (L / R) | ☐ Hand (L / R) | ☐ Palm (L / R) |
| ☐ Finger — Thumb (L / R) | ☐ Finger — Index (L / R) | ☐ Finger — Middle (L / R) |
| ☐ Finger — Ring (L / R) | ☐ Finger — Little (L / R) | ☐ Chest / Ribs |
| ☐ Abdomen | ☐ Upper Back | ☐ Mid Back |
| ☐ Lower Back / Lumbar | ☐ Pelvis | ☐ Hip (L / R) |
| ☐ Groin | ☐ Thigh (L / R) | ☐ Knee (L / R) |
| ☐ Lower Leg / Shin (L / R) | ☐ Ankle (L / R) | ☐ Foot (L / R) |
| ☐ Heel (L / R) | ☐ Toe(s) (L / R) | ☐ Multiple Body Parts |
| ☐ Internal Organs | ☐ Whole Body / Systemic | |

Type of Injury (tick one — OSHA / RIDDOR)

- | | | |
|---|---|---|
| ☐ Laceration / Cut | ☐ Puncture Wound | ☐ Abrasion / Scrape |
| ☐ Contusion / Bruise | ☐ Fracture — Open | ☐ Fracture — Closed |
| ☐ Dislocation | ☐ Sprain / Strain | ☐ Crush Injury |
| ☐ Amputation | ☐ Avulsion (tissue torn away) | ☐ Burn — 1st Degree (redness) |
| ☐ Burn — 2nd Degree (blisters) | ☐ Burn — 3rd Degree (full thickness) | ☐ Chemical Burn |
| ☐ Electrical Burn | ☐ Thermal Burn (heat/cold) | ☐ Foreign Body (eye, skin, etc.) |
| ☐ Inhalation Injury | ☐ Concussion / Head Injury | ☐ Internal Injury |
| ☐ Nerve Damage | ☐ Tendonitis / Tendon Injury | ☐ Herniated Disc |
| ☐ Carpal Tunnel Syndrome | ☐ Dental Injury | ☐ Hearing Loss / Damage |
| ☐ Vision Loss / Damage | ☐ Electric Shock | ☐ Drowning / Near-Drowning |
| ☐ Multiple Injuries | ☐ Other (specify below) | |

If 'Other', specify injury type: _____

Chapter 1: Injury Report Form (continued)

Mechanism of Injury — How Did It Happen? (tick one — OSHA 301)

- | | | |
|--|---|---|
| ☐ Struck by moving object | ☐ Struck by falling object | ☐ Struck against stationary object |
| ☐ Caught in machine / equipment | ☐ Caught between objects | ☐ Contact with sharp object / edge |
| ☐ Contact with hot surface / object | ☐ Contact with cold surface / object | ☐ Contact with electrical current |
| ☐ Contact with chemical substance | ☐ Contact with radiation source | ☐ Contact with biological agent |
| ☐ Fall from height — ladder | ☐ Fall from height — scaffolding | ☐ Fall from height — roof / platform |
| ☐ Fall from height — stairs / steps | ☐ Fall from height — other | ☐ Fall on same level — slip |
| ☐ Fall on same level — trip | ☐ Fall on same level — other | ☐ Overexertion — lifting |
| ☐ Overexertion — carrying | ☐ Overexertion — pushing / pulling | ☐ Overexertion — throwing |
| ☐ Overexertion — reaching / bending | ☐ Repetitive motion injury | ☐ Vehicle accident — on-site |
| ☐ Vehicle accident — off-site
(work-related) | ☐ Pedestrian struck by vehicle | ☐ Forklift incident |
| ☐ Assault by person | ☐ Assault by animal | ☐ Explosion |
| ☐ Fire | ☐ Exposure to extreme heat | ☐ Exposure to extreme cold |
| ☐ Exposure to noise | ☐ Exposure to vibration | ☐ Other (specify below) |

If 'Other', specify mechanism: _____

Object or Substance That Directly Harmed the Employee (OSHA 301 — Field 17)

[NEW] Identify the specific object, substance, equipment, or material that directly caused the injury. Examples: conveyor belt, sulfuric acid, forklift, ladder, box cutter, steam pipe.

Treatment & Medical (OSHA 301 — Section C)

Treatment Provided (tick all that apply)

- | | |
|--|---|
| ☐ No treatment needed | ☐ First Aid — bandage / dressing |
| ☐ First Aid — cleaning / flushing wound | ☐ First Aid — cold pack / ice |
| ☐ First Aid — splint / sling | ☐ First Aid — eye wash / irrigation |
| ☐ First Aid — OTC medication (non-prescription) | ☐ Medical Treatment — stitches / sutures |
| ☐ Medical Treatment — prescription medication | ☐ Medical Treatment — X-ray / imaging |
| ☐ Medical Treatment — surgery | ☐ Medical Treatment — physical therapy |
| ☐ Emergency Room visit | ☐ Hospitalized (inpatient) |
| ☐ Ambulance called | |

Physician / HCP Name (OSHA): _____

Facility Name: _____

Facility Address (OSHA 301): _____

Chapter 1: Injury Report Form (continued)

OSHA Recordability Classification (tick one — Safety Officer to complete)

Required for OSHA 300 Log entry. Only tick one — the most serious outcome.

- ☐ Death
- ☐ Days Away From Work
- ☐ Job Transfer or Restriction
- ☐ Other Recordable Case
- ☐ First Aid Only (NOT recordable)

Days Away From Work: _____

Days of Restricted Duty: _____

Date of Death (if applicable) [NEW]: _____

[NEW] Record the exact date if the injury resulted in a fatality.

RIDDOR Reportability (UK only — tick if applicable)

- ☐ Fatality — report immediately
- ☐ Specified Injury (see Appendix B) — report immediately
- ☐ Over-7-Day Absence — report within 15 days
- ☐ Not RIDDOR reportable

PPE Worn at Time of Incident (tick all that apply)

- | | | |
|---|---|---|
| ☐ Hard Hat / Helmet | ☐ Safety Glasses / Goggles | ☐ Face Shield |
| ☐ Hearing Protection (plugs/muffs) | ☐ Respirator / Dust Mask | ☐ Gloves — Leather |
| ☐ Gloves — Chemical | ☐ Gloves — Cut-Resistant | ☐ Safety Shoes / Steel Toe Boots |
| ☐ High-Visibility Vest | ☐ Fall Harness / Lanyard | ☐ Welding Shield |
| ☐ Apron / Protective Clothing | ☐ Knee Pads | ☐ None worn |
| ☐ PPE not required for task | | |

Severity Classification (tick one)

Select the most appropriate severity level for this incident

- ☐ 1 — Critical (life-threatening / fatality)
- ☐ 2 — Major (hospitalization / permanent disability)
- ☐ 3 — Moderate (medical treatment beyond first aid)
- ☐ 4 — Minor (first aid only)
- ☐ 5 — Insignificant (no treatment needed)

Immediate Actions Taken

Describe any immediate actions taken at the scene.

Witnesses

Witness 1 Name: _____

Witness 2 Name: _____

Witness 3 Name: _____

Contact: _____

Contact: _____

Contact: _____

Reporter Signature: _____

Date: _____

Supervisor Signature: _____

Date: _____

Chapter 2: Illness Report Form

OSHA 301 & RIDDOR Compliant — For recording work-related illnesses

* Illnesses often develop over time. Record both onset date and date first reported.

Organization: _____

Site/Location: _____

Date: _____

Time: _____

Report # (INC- ____ - ____): _____

Reported By: _____

Affected Person Information

Full Name (OSHA): _____

Employee ID: _____

Date of Birth: _____

Job Title: _____

Department: _____

Years in Current Role: _____

Employment Status (RIDDOR) [NEW]: _____

[NEW] Tick one:

☐ Employee [NEW]

☐ Self-employed [NEW]

☐ Member of the public [NEW]

☐ Contractor / agency worker [NEW]

☐ Volunteer / trainee [NEW]

Incident Location

Site/Plant: _____

Building/Area: _____

Specific Location: _____

Department: _____

Date of Onset (OSHA): _____

Date Reported: _____

Illness Category (tick one — OSHA / RIDDOR)

☐ Skin Disorder — Contact Dermatitis

☐ Skin Disorder — Eczema (occupational)

☐ Skin Disorder — Other skin condition

☐ Respiratory — Silicosis

☐ Respiratory — Mesothelioma

☐ Respiratory — Chronic Bronchitis

☐ Respiratory — Other lung disease

☐ Hearing Loss — Partial

☐ Poisoning — Lead

☐ Poisoning — Carbon Monoxide

☐ Poisoning — Other toxic substance

☐ Musculoskeletal — Tendonitis / Tenosynovitis (RIDDOR)

☐ Musculoskeletal — Hand-Arm Vibration Syndrome (RIDDOR)

☐ Musculoskeletal — Cramp of Hand/Forearm (RIDDOR)

☐ Infectious Disease — Hepatitis B/C

☐ Infectious Disease — Leptospirosis (RIDDOR)

☐ Heat-Related — Heat Exhaustion

☐ Cold-Related — Hypothermia

☐ Radiation Illness

☐ Vision Impairment (occupational)

☐ Other Illness (specify below)

☐ Skin Disorder — Chemical Burn (chronic)

☐ Skin Disorder — Skin Cancer (occupational)

☐ Respiratory — Occupational Asthma

☐ Respiratory — Asbestosis

☐ Respiratory — RADS (Reactive Airways)

☐ Respiratory — Pneumoconiosis

☐ Hearing Loss — Noise-Induced (NIHL)

☐ Hearing Loss — Total

☐ Poisoning — Chemical / Solvent

☐ Poisoning — Pesticide

☐ Musculoskeletal — Carpal Tunnel Syndrome (RIDDOR)

☐ Musculoskeletal — Bursitis

☐ Musculoskeletal — Repetitive Strain Injury (RSI)

☐ Infectious Disease — Bloodborne Pathogen

☐ Infectious Disease — Tuberculosis

☐ Infectious Disease — Other

☐ Heat-Related — Heat Stroke

☐ Cold-Related — Frostbite

☐ Occupational Cancer

☐ Mental Health — Work-related stress

If 'Other', specify illness: _____

Chapter 2: Illness Report Form (continued)

Exposure Type (tick all that apply)

- | | | |
|--|--|--|
| ☐ Chemical — Liquid | ☐ Chemical — Gas / Vapor | ☐ Chemical — Dust / Powder |
| ☐ Chemical — Fume | ☐ Chemical — Mist / Spray | ☐ Chemical — Solid |
| ☐ Biological — Blood / Body Fluid | ☐ Biological — Bacteria / Virus | ☐ Biological — Mold / Fungus |
| ☐ Biological — Animal / Insect | ☐ Physical — Noise | ☐ Physical — Vibration |
| ☐ Physical — Radiation (ionizing) | ☐ Physical — Radiation (non-ionizing) | ☐ Physical — Extreme Heat |
| ☐ Physical — Extreme Cold | ☐ Physical — Pressure (hyper/hypobaric) | ☐ Ergonomic — Repetitive Motion |
| ☐ Ergonomic — Awkward Posture | ☐ Ergonomic — Manual Handling | ☐ Ergonomic — Vibration Tools |
| ☐ Psychosocial — Workplace Stress | ☐ Psychosocial — Harassment | |

Substance / Agent That Caused or Contributed to Illness (OSHA 301 — Field 17)

[NEW] Identify the specific substance, agent, or material. Examples: asbestos fibers, lead dust, toluene, latex gloves, vibrating hand tools.

Substance / Agent Name (if chemical exposure): _____

Duration of Exposure (days/months/years): _____

Occupational Classification (tick one)

- ☐ Confirmed Occupational — directly caused by work
- ☐ Suspected Occupational — likely work-related, under review
- ☐ Non-Occupational — not work-related
- ☐ Under Investigation

Medical Status

- | | |
|---|---|
| ☐ Medical diagnosis confirmed | ☐ Awaiting diagnosis |
| ☐ Under medical treatment | ☐ Hospitalized |
| ☐ Returned to work — full duty | ☐ Returned to work — restricted duty |
| ☐ Off work — recovery | ☐ Permanent disability |

Physician Name: _____

Diagnosis: _____

Date of Death (if applicable) **[NEW]**: _____

[NEW] Record the exact date if the illness resulted in a fatality.

Severity Classification (tick one)

Select the most appropriate severity level for this incident

- ☐ 1 — Critical (life-threatening / fatality)
- ☐ 2 — Major (hospitalization / permanent disability)
- ☐ 3 — Moderate (medical treatment beyond first aid)
- ☐ 4 — Minor (first aid only)
- ☐ 5 — Insignificant (no treatment needed)

Immediate Actions Taken

Describe any immediate actions taken.

Reporter Signature: _____

Date: _____

Supervisor Signature: _____

Date: _____

Chapter 3: Near-Miss Report Form

For recording close calls that could have resulted in injury, illness, or damage

Organization: _____

Site/Location: _____

Date: _____

Time: _____

Report # (INC-____-____): _____

Reported By: _____

Incident Location

Site/Plant: _____

Building/Area: _____

Specific Location: _____

Department: _____

Incident Description

Describe exactly what happened, step by step. Include what the employee was doing, what tools/equipment/materials were involved, and how the incident occurred. (Minimum 50 words)

Potential Severity — What Could Have Happened? (tick one)

- ☐ Fatality — could have caused death
- ☐ Critical — could have caused life-threatening injury
- ☐ Major — could have caused hospitalization or permanent disability
- ☐ Moderate — could have caused medical treatment beyond first aid
- ☐ Minor — could have caused first aid or minor injury

Potential Injury / Outcome Type (tick all that apply)

- | | | |
|---|---|--|
| ☐ Crush injury | ☐ Fall from height | ☐ Struck-by impact |
| ☐ Caught-in/between | ☐ Electrical shock/electrocution | ☐ Chemical exposure/burn |
| ☐ Fire/explosion | ☐ Inhalation of toxic substance | ☐ Amputation risk |
| ☐ Fracture risk | ☐ Vehicle collision | ☐ Drowning risk |
| ☐ Suffocation/asphyxiation | ☐ Environmental contamination | ☐ Property/equipment damage |
| ☐ Multiple casualties possible | | |

Chapter 3: Near-Miss Report Form (continued)

Hazard Category (tick one)

- | | |
|---|---|
| ☐ Mechanical — Moving parts / rotating equipment | ☐ Mechanical — Pinch points / sharp edges |
| ☐ Mechanical — Pressure vessels / compressed gas | ☐ Mechanical — Lifting equipment / cranes |
| ☐ Electrical — Exposed wiring / damaged cables | ☐ Electrical — Arc flash risk |
| ☐ Electrical — Grounding / bonding failure | ☐ Chemical — Corrosive substance |
| ☐ Chemical — Flammable / explosive material | ☐ Chemical — Toxic / poisonous substance |
| ☐ Chemical — Reactive chemical | ☐ Biological — Bloodborne pathogen risk |
| ☐ Biological — Infectious material | ☐ Ergonomic — Manual handling hazard |
| ☐ Ergonomic — Repetitive motion risk | ☐ Fall Hazard — Unguarded edge / opening |
| ☐ Fall Hazard — Wet / slippery surface | ☐ Fall Hazard — Uneven surface / obstacle |
| ☐ Fall Hazard — Unstable ladder / scaffold | ☐ Fire / Explosion — Ignition source near flammable material |
| ☐ Confined Space — Oxygen deficient atmosphere | ☐ Confined Space — Toxic atmosphere |
| ☐ Vehicle / Traffic — Pedestrian-vehicle interface | ☐ Vehicle / Traffic — Loading / unloading |
| ☐ Environmental — Extreme temperature | ☐ Environmental — Poor lighting |
| ☐ Environmental — Noise exposure | ☐ Other (specify below) |

If 'Other', specify hazard: _____

Contributing Factors (tick all that apply)

- | | | |
|---|--|---|
| ☐ Lack of awareness / inattention | ☐ Rushing / time pressure | ☐ Failure to follow procedure |
| ☐ Taking shortcuts | ☐ Inadequate training | ☐ Lack of experience |
| ☐ Fatigue / impairment | ☐ Communication breakdown | ☐ Inadequate guarding / barriers |
| ☐ Equipment malfunction / failure | ☐ Poor maintenance | ☐ Design / engineering defect |
| ☐ Inadequate PPE | ☐ PPE not used | ☐ Poor housekeeping |
| ☐ Wet / slippery surface | ☐ Inadequate lighting | ☐ Extreme weather / temperature |
| ☐ Cluttered workspace | ☐ Inadequate supervision | ☐ Understaffing |
| ☐ Excessive workload | ☐ Peer pressure | ☐ Complacency / overconfidence |
| ☐ Change in process not communicated | ☐ New equipment / unfamiliar task | |

Immediate Actions

- | | |
|--|--|
| ☐ Area cordoned off / barricaded | ☐ Equipment locked out / tagged out |
| ☐ Supervisor notified | ☐ Safety officer notified |
| ☐ Temporary controls put in place | ☐ Warning signs posted |
| ☐ Work stopped in area | ☐ No immediate action taken |

Is this a recurring near-miss?

- ☐ Yes — first time reported
- ☐ Yes — reported before (provide previous report #)
- ☐ No — first occurrence
- ☐ Unknown

Previous Report # (if recurring): _____

Suggested Prevention Measures

Describe suggested actions to prevent recurrence.

Witnesses

Witness 1 Name: _____

Contact: _____

Witness 2 Name: _____

Contact: _____

Witness 3 Name: _____

Contact: _____

Reporter Signature: _____

Date: _____

Supervisor Signature: _____

Date: _____

Chapter 4: Property Damage Report Form

For recording damage to equipment, structures, vehicles, or assets

Organization: _____

Site/Location: _____

Date: _____

Time: _____

Report # (INC-____-____): _____

Reported By: _____

Incident Location

Site/Plant: _____

Building/Area: _____

Specific Location: _____

Department: _____

Incident Description

Describe exactly what happened, step by step. Include what the employee was doing, what tools/equipment/materials were involved, and how the incident occurred. (Minimum 50 words)

Damaged Property Details

Equipment / Property Name: _____

Asset Tag / ID: _____

Manufacturer / Model: _____

Serial Number: _____

Owner / Department Responsible: _____

: _____

Type of Damage (tick all that apply)

- ☐ Structural — Building / wall / roof / floor
- ☐ Mechanical — Engine / motor failure
- ☐ Mechanical — Hydraulic / pneumatic system
- ☐ Electrical — Motor / transformer
- ☐ Vehicle — Rollover
- ☐ Piping / Plumbing — Leak / rupture
- ☐ Fire Damage — Total loss
- ☐ Chemical / Corrosion Damage
- ☐ IT / Electronics — Data loss
- ☐ Safety Equipment — Guards / barriers
- ☐ Other (specify below)

If 'Other', specify damage type: _____

- ☐ Structural — Foundation / support beam
- ☐ Mechanical — Gears / bearings / belts
- ☐ Electrical — Wiring / control panel
- ☐ Vehicle — Collision damage
- ☐ Vehicle — Mechanical failure
- ☐ Fire Damage — Partial
- ☐ Water / Flood Damage
- ☐ IT / Electronics — Hardware
- ☐ Tools / Instruments
- ☐ Safety Equipment — Fire suppression

Estimated Repair Cost (\$): _____

Estimated Replace Cost (\$): _____

Equipment Status After Incident

- Fully operational — no impact
- Operational with restrictions
- Out of service — repairable
- Out of service — total loss / write-off
- Assessment pending

Impact Assessment

- Production stopped
- Production not impacted
- Environmental risk — containment needed
- Third-party property damaged

Insurance Claim #: _____

- Production reduced / slowed
- Safety risk — area cordoned off
- Insurance claim needed
- Public infrastructure affected

Insurer Notified? (Y/N): _____

Repair / Replacement Plan

Describe the planned repair or replacement actions.

Witnesses

Witness 1 Name: _____

Contact: _____

Witness 2 Name: _____

Contact: _____

Witness 3 Name: _____

Contact: _____

Severity Classification (tick one)

Select the most appropriate severity level for this incident

- 1 — Critical (life-threatening / fatality)
- 2 — Major (hospitalization / permanent disability)
- 3 — Moderate (medical treatment beyond first aid)
- 4 — Minor (first aid only)
- 5 — Insignificant (no treatment needed)

Reporter Signature: _____

Date: _____

Supervisor Signature: _____

Date: _____

Chapter 5: Environmental Release Report Form

For recording chemical spills, emissions, or contamination events

** Environmental releases may trigger EPA, state, or local reporting requirements. Consult your Environmental Officer.*

Organization: _____

Site/Location: _____

Date: _____

Time: _____

Report # (INC- ____ - ____): _____

Reported By: _____

Incident Location

Site/Plant: _____

Building/Area: _____

Specific Location: _____

Department: _____

Incident Description

Describe exactly what happened, step by step. Include what the employee was doing, what tools/equipment/materials were involved, and how the incident occurred. (Minimum 50 words)

Substance Information

Substance / Chemical Name: _____

CAS Number (if known): _____

SDS Available? (Y/N): _____

Quantity Released: _____

Unit (gal/lbs/kg/L): _____

: _____

Substance Type (tick all that apply)

- | | | |
|---|---|--|
| ☐ Petroleum / Oil / Fuel | ☐ Solvent / Degreaser | ☐ Acid |
| ☐ Base / Alkali / Caustic | ☐ Oxidizer | ☐ Corrosive |
| ☐ Flammable Liquid | ☐ Flammable Gas | ☐ Toxic / Poisonous |
| ☐ Carcinogen | ☐ Compressed Gas | ☐ Cryogenic |
| ☐ Pesticide / Herbicide | ☐ Radioactive Material | ☐ Wastewater / Effluent |
| ☐ Biological / Medical Waste | ☐ Unknown substance | ☐ Other (specify below) |

Release Medium — Where Did It Go? (tick all that apply)

- | | |
|--|---|
| ☐ Air — Fugitive emission (leak) | ☐ Air — Stack / vent emission |
| ☐ Air — Open air release | ☐ Water — Storm drain / sewer |
| ☐ Water — Surface water (river/lake/stream) | ☐ Water — Groundwater |
| ☐ Water — Ocean / coastal | ☐ Soil — Surface soil |
| ☐ Soil — Subsurface / underground | ☐ Contained — Within secondary containment |
| ☐ Contained — Within building / facility | ☐ Multiple media |

Containment Status (tick one)

- ☐ Fully contained — no release to environment
- ☐ Partially contained — some release occurred
- ☐ Not contained — active release
- ☐ Contained after initial release — cleanup in progress
- ☐ Fully cleaned up

Chapter 5: Environmental Release (continued)

Regulatory Notification Requirements (tick all that apply)

- | | |
|---|---|
| ☐ EPA notification required (CERCLA / EPCRA) | ☐ State environmental agency notification required |
| ☐ Local fire department / HAZMAT notified | ☐ Coast Guard notified (water release) |
| ☐ National Response Center (NRC) called | ☐ RIDDOR notification (UK — dangerous occurrence) |
| ☐ No regulatory notification required | ☐ Under assessment — not yet determined |

Regulatory Report # (if filed): _____

Agency Contacted: _____

Cleanup / Response Actions

Describe all cleanup and response actions taken.

Cleanup Method (tick all that apply)

- | | |
|---|---|
| ☐ Absorbent pads / booms | ☐ Vacuum / pump extraction |
| ☐ Soil excavation / removal | ☐ Neutralization |
| ☐ Dilution / flushing | ☐ Bioremediation |
| ☐ Professional HAZMAT contractor | ☐ In-house response team |

Severity Classification (tick one)

Select the most appropriate severity level for this incident

- ☐ 1 — Critical (life-threatening / fatality)
- ☐ 2 — Major (hospitalization / permanent disability)
- ☐ 3 — Moderate (medical treatment beyond first aid)
- ☐ 4 — Minor (first aid only)
- ☐ 5 — Insignificant (no treatment needed)

Witnesses

Witness 1 Name: _____

Contact: _____

Witness 2 Name: _____

Contact: _____

Witness 3 Name: _____

Contact: _____

Reporter Signature: _____

Date: _____

Supervisor Signature: _____

Date: _____

Chapter 6: Unsafe Condition Report Form

For identifying and documenting hazards or dangerous situations before they cause an incident

Organization: _____

Site/Location: _____

Date: _____

Time: _____

Report # (INC-____-____): _____

Reported By: _____

Incident Location

Site/Plant: _____

Building/Area: _____

Specific Location: _____

Department: _____

Condition Description

Describe the unsafe condition — what exactly is wrong, where, and why it's dangerous.

Hazard Type (tick one)

- | | |
|---|--|
| ☐ Slip / Trip / Fall — Wet surface | ☐ Slip / Trip / Fall — Uneven surface |
| ☐ Slip / Trip / Fall — Obstruction / clutter | ☐ Slip / Trip / Fall — Missing handrail / cover |
| ☐ Fall from Height — Unguarded edge / opening | ☐ Fall from Height — Damaged ladder / scaffold |
| ☐ Fall from Height — Missing guardrail | ☐ Electrical — Exposed wiring / damaged cable |
| ☐ Electrical — Overloaded circuit | ☐ Electrical — Missing cover plate / guard |
| ☐ Electrical — Water near electrical source | ☐ Mechanical — Missing machine guard |
| ☐ Mechanical — Defective equipment | ☐ Mechanical — Damaged tool |
| ☐ Mechanical — Unsecured load / material | ☐ Chemical — Unlabeled container |
| ☐ Chemical — Improper storage | ☐ Chemical — Leaking container / pipe |
| ☐ Chemical — Missing SDS | ☐ Fire — Blocked fire exit / extinguisher |
| ☐ Fire — Flammable material near ignition source | ☐ Fire — Damaged fire suppression system |
| ☐ Structural — Damaged floor / wall / ceiling | ☐ Structural — Overloaded rack / shelf |
| ☐ Housekeeping — Cluttered walkway | ☐ Housekeeping — Accumulated waste / debris |
| ☐ Ventilation — Inadequate air flow | ☐ Ventilation — Fumes / dust accumulation |
| ☐ Lighting — Inadequate / broken | ☐ Noise — Excessive without controls |
| ☐ Confined Space — Uncontrolled entry | ☐ Lockout/Tagout — Missing / defective |
| ☐ PPE — Missing / unavailable | ☐ Signage — Missing safety signs / labels |
| ☐ Vehicle — Defective brakes / steering | ☐ Vehicle — Obstructed pedestrian path |
| ☐ Other (specify below) | |

If 'Other', specify hazard: _____

Risk Level (tick one)

- Imminent Danger — Stop work immediately, evacuate area if needed
- High — Serious injury likely if not corrected within 24 hours
- Medium — Injury possible, correct within 1 week
- Low — Minor risk, correct during scheduled maintenance

Current Controls in Place (tick all that apply)

- | | | |
|--------------------------|---|-----------------------------------|
| ■ None — no controls | ■ Warning signage posted | ■ Area barricaded / cordoned off |
| ■ Lockout/Tagout applied | ■ PPE required in area | ■ Temporary repair / fix |
| ■ Verbal warning given | ■ Administrative control (procedure change) | ■ Area closed / access restricted |

Urgency — When Must This Be Fixed?

- Immediate — stop work, fix now
- Within 24 hours
- Within 1 week
- Scheduled maintenance / next shutdown
- Long-term planning (capital project)

Recommended Corrective Action

Describe your recommended fix or improvement.

Reporter Signature: _____

Date: _____

Supervisor Signature: _____

Date: _____

Chapter 7: Observation Report Form

For recording safe or unsafe behaviors and conditions observed during work

Organization: _____

Site/Location: _____

Date: _____

Time: _____

Report # (INC-____-____): _____

Reported By: _____

Incident Location

Site/Plant: _____

Building/Area: _____

Specific Location: _____

Department: _____

Observation Type (tick one)

- ☐ Safe Behavior — Positive (recognized good practice)
- ☐ Unsafe Behavior — Negative (needs correction)
- ☐ Safe Condition — Positive (well-maintained area/equipment)
- ☐ Unsafe Condition — Negative (use Chapter 6 form for formal report)
- ☐ Process / Procedure Observation

Category (tick one)

- | | |
|---|--|
| ☐ PPE — Proper use / compliance | ☐ PPE — Non-compliance / misuse |
| ☐ Housekeeping — Clean, organized workspace | ☐ Housekeeping — Cluttered, disorganized |
| ☐ Procedures — Following SOP correctly | ☐ Procedures — Deviating from SOP |
| ☐ Ergonomics — Good body mechanics | ☐ Ergonomics — Poor posture / lifting technique |
| ☐ Communication — Clear safety communication | ☐ Communication — Inadequate / missing |
| ☐ Tools / Equipment — Proper use and condition | ☐ Tools / Equipment — Improper use / damaged |
| ☐ Chemical Handling — Proper handling and labeling | ☐ Chemical Handling — Improper storage / handling |
| ☐ Driving / Vehicle — Safe operation | ☐ Driving / Vehicle — Unsafe operation |
| ☐ Lockout/Tagout — Proper procedure | ☐ Lockout/Tagout — Bypass / failure |
| ☐ Fall Protection — Proper use | ☐ Fall Protection — Failure to use |
| ☐ Emergency Preparedness — Good practice | ☐ Emergency Preparedness — Gaps identified |
| ☐ Other (specify below) | |

If 'Other', specify category: _____

Observation Details

Describe what you observed. Include the task being performed, who was involved, and what specifically was done correctly or incorrectly.

Person(s) Observed (optional): _____

Task / Activity: _____

Action Taken

- ☐ Positive feedback given to person(s)
- ☐ No immediate action — recorded for trending
- ☐ Safety officer notified
- ☐ Training need identified
- ☐ Coaching / correction provided on the spot
- ☐ Supervisor notified
- ☐ Formal report required (use relevant form)
- ☐ Shared as best practice with team

Follow-Up Required?

- ☐ No follow-up needed
- ☐ Yes — share as best practice / safety moment
- ☐ Yes — training or coaching needed
- ☐ Yes — engineering or administrative change needed
- ☐ Yes — formal investigation warranted

Suggested Improvement / Recognition

Describe suggestions or recognition.

Reporter Signature: _____

Date: _____

Supervisor Signature: _____

Date: _____

Chapter 8: Investigation Form

For use by investigators during incident investigation — covers evidence, analysis, and findings

Investigation Reference

Investigation #: _____

Lead Investigator: _____

Investigation Due Date: _____

Incident Report #: _____

Investigation Start Date: _____

Incident Type: _____

Investigation Team Members

Member 1 Name: _____

Member 2 Name: _____

Member 3 Name: _____

Member 4 Name: _____

Member 1 Role/Title: _____

Member 2 Role/Title: _____

Member 3 Role/Title: _____

Member 4 Role/Title: _____

Incident Summary (from original report)

Summarize the original incident report.

Event Timeline — Reconstruction of What Happened

List each event in chronological order leading up to, during, and after the incident.

1. Time: ____:____ Event: _____
2. Time: ____:____ Event: _____
3. Time: ____:____ Event: _____
4. Time: ____:____ Event: _____
5. Time: ____:____ Event: _____
6. Time: ____:____ Event: _____
7. Time: ____:____ Event: _____
8. Time: ____:____ Event: _____
9. Time: ____:____ Event: _____
10. Time: ____:____ Event: _____

Chapter 8: Investigation Form (continued)

Evidence Collected

- **Photographs** Description: _____
- **Video footage** Description: _____
- **Equipment / parts** Description: _____
- **Documents / procedures** Description: _____
- **Training records** Description: _____
- **Maintenance records** Description: _____
- **Witness statements** Description: _____
- **CCTV footage** Description: _____
- **Data logs / sensor readings** Description: _____
- **PPE (collected for inspection)** Description: _____
- **Samples (chemical/material)** Description: _____
- **Previous incident reports (same area/type)** Description: _____

Witness Interview Records

Witness 1

Name: _____

Role / Position: _____

Date Interviewed: _____

Key Statement / Observations

Record key points from interview.

Witness 2

Name: _____

Role / Position: _____

Date Interviewed: _____

Key Statement / Observations

Record key points from interview.

Witness 3

Name: _____

Role / Position: _____

Date Interviewed: _____

Key Statement / Observations

Record key points from interview.

Chapter 8: Investigation Form (continued)

Root Cause Analysis — 5-Why Method

Start with the incident event. Ask 'Why did this happen?' for each level until you reach the root cause (minimum 3 levels, aim for 5).

Incident Event: _____

↓ WHY did the above happen?

Why 1: _____

↓ WHY did the above happen?

Why 2: _____

↓ WHY did the above happen?

Why 3: _____

↓ WHY did the above happen?

Why 4: _____

Root Cause Analysis — Fishbone / Ishikawa Categories

For each category, identify contributing factors. Leave blank if not applicable.

People / Human

Examples: Training gaps, experience, fatigue, behavior, communication, supervision

Process / Procedure

Examples: SOPs missing/outdated, procedure not followed, process design flaw

Equipment / Machine

Examples: Equipment failure, design defect, maintenance issues, missing guards

Materials

Examples: Defective materials, wrong specification, chemical hazard, labeling issues

Environment

Examples: Housekeeping, lighting, temperature, noise, weather, confined space

Management / Organization

Examples: Policies, resources, supervision, culture, change management

Chapter 8: Investigation Form (continued)

Root Cause(s) Identified

Root Cause Category (tick all that apply)

- | | |
|--|---|
| ☐ Inadequate training / competency | ☐ Lack of experience / unfamiliar task |
| ☐ Fatigue / stress / impairment | ☐ Complacency / overconfidence |
| ☐ Procedural non-compliance | ☐ Inadequate / missing procedures |
| ☐ Communication failure | ☐ Inadequate supervision |
| ☐ Equipment failure / malfunction | ☐ Defective equipment / design flaw |
| ☐ Inadequate maintenance / inspection | ☐ Inadequate guarding / engineering controls |
| ☐ Poor housekeeping / workspace condition | ☐ Inadequate lighting / ventilation |
| ☐ Inadequate risk assessment | ☐ Change management failure |
| ☐ Resource constraints / understaffing | ☐ PPE inadequate / not provided |
| ☐ Organizational culture / pressure | ☐ Third-party / contractor failure |
| ☐ Other (specify below) | |

Root cause description (detailed)

Describe the identified root cause(s) in detail.

Recommended Corrective & Preventive Actions

List all actions recommended as a result of this investigation.

Action 1:

Type: ☐ Corrective ☐ Preventive Priority: ☐ Critical ☐ High ☐ Medium ☐ Low Owner: _____

Action 2:

Type: ☐ Corrective ☐ Preventive Priority: ☐ Critical ☐ High ☐ Medium ☐ Low Owner: _____

Action 3:

Type: ☐ Corrective ☐ Preventive Priority: ☐ Critical ☐ High ☐ Medium ☐ Low Owner: _____

Action 4:

Type: ☐ Corrective ☐ Preventive Priority: ☐ Critical ☐ High ☐ Medium ☐ Low Owner: _____

Action 5:

Type: ☐ Corrective ☐ Preventive Priority: ☐ Critical ☐ High ☐ Medium ☐ Low Owner: _____

Investigation Findings Summary

Summarize all findings.

Investigation Approval

Investigator Signature: _____

Date: _____

Safety Manager Approval: _____

Date: _____

Comments

Additional comments.

☐ Approved ☐ Returned for further investigation

Chapter 9: CAPA Form

Corrective & Preventive Action — For tracking actions from creation to verified closure

CAPA Identification

CAPA #: _____

Date Created: _____

Source Incident #: _____

Source Investigation #: _____

CAPA Type (tick one)

- ☐ Corrective Action — Fix what caused the incident (address root cause)
- ☐ Preventive Action — Prevent recurrence (systemic change)

CAPA Source (tick one)

- | | | |
|---|---|--|
| ☐ Investigation finding | ☐ Audit finding | ☐ Inspection finding |
| ☐ Near-miss report | ☐ Observation report | ☐ Management review |
| ☐ Regulatory requirement | ☐ Customer complaint | ☐ Employee suggestion |
| ☐ Other | | |

Priority (tick one)

- ☐ Critical — Complete within 24 hours
- ☐ High — Complete within 3 business days
- ☐ Medium — Complete within 7 business days
- ☐ Low — Complete within 30 days

CAPA Details

Root Cause Being Addressed

Describe the root cause this action addresses.

Corrective / Preventive Action Description

Describe exactly what must be done, by whom, and how it will be verified effective.

Action Category (tick all that apply)

☐ Engineering Control — Physical modification / guard / interlock

☐ Training — New training / re-training / certification

☐ Maintenance — Repair / replacement / preventive maintenance

☐ Design Change — Redesign of equipment / process

☐ Signage / Labeling — New warnings / labels

☐ Communication — New briefing / safety alert

If 'Other', specify: _____

☐ Administrative Control — Procedure change / new SOP

☐ PPE — New PPE requirement / upgrade

☐ Inspection — New inspection / audit requirement

☐ Substitution — Replace hazardous material / process

☐ Organizational — Staffing / scheduling change

☐ Other (specify below)

Chapter 9: CAPA Form (continued)

Assignment & Tracking

Assigned To (Owner): _____

Owner's Department: _____

Due Date: _____

Verifier Name: _____

Resources Required: _____

Estimated Cost (\$): _____

Budget Approved? (Y/N): _____

: _____

Completion Record

Completion Date: _____

Completed By: _____

Completion Notes — What Was Done

Describe what was actually done.

Evidence of Completion Attached (tick all that apply)

- | | |
|--|--|
| ☐ Photographs (before / after) | ☐ Updated procedure / SOP |
| ☐ Training records / sign-off sheet | ☐ Equipment inspection report |
| ☐ Purchase order / invoice | ☐ Maintenance work order |
| ☐ Engineering drawings / specifications | ☐ Test results / measurements |
| ☐ Other documentation | |

Verification of Effectiveness

Verification must be performed by someone other than the CAPA owner, after a reasonable observation period.

Verification Date: _____

Verified By: _____

Verification Method: _____

: _____

Verification Result (tick one)

- ☐ Effective — Root cause addressed, no recurrence
- ☐ Partially Effective — Additional action needed (open new CAPA)
- ☐ Not Effective — Action did not address root cause (reopen CAPA)
- ☐ Too Early to Verify — Re-verify on: ____/____/____

Verification Notes

Record verification observations.

Owner Signature: _____

Date: _____

Verifier Signature: _____

Date: _____

Safety Manager Closure: _____

Date: _____

Chapter 10: Dangerous Occurrence Report Form

[NEW] RIDDOR Schedule 2 Compliant — For recording dangerous occurrences that must be reported to HSE

* Dangerous occurrences are specific near-miss events listed in RIDDOR 2013 Schedule 2 that must be reported to HSE even if no injury occurred. Report by phone without delay, then submit written report within 10 days.

Organization: _____

Site/Location: _____

Date: _____

Time: _____

Report # (DO-____-____): _____

Reported By: _____

Incident Location

Site/Plant: _____

Building/Area: _____

Specific Location: _____

Department: _____

Incident Description

Describe exactly what happened, step by step. Include what the employee was doing, what tools/equipment/materials were involved, and how the incident occurred. (Minimum 50 words)

Type of Dangerous Occurrence (tick all that apply — RIDDOR Schedule 2)

- ☐ Collapse, overturning, or failure of load-bearing equipment (cranes, lifts, excavators)
- ☐ Explosion, collapse, or burst of a closed vessel or associated pipework
- ☐ Electrical short circuit or overload causing fire or explosion
- ☐ Unintended collapse or partial collapse of a building or structure
- ☐ Unintended collapse or partial collapse of scaffold over 5 metres
- ☐ Any unintentional explosion or fire stopping normal work for >24 hours
- ☐ Accidental release of any substance that could cause injury
- ☐ Failure of industrial radiography or irradiation equipment
- ☐ Malfunction of breathing apparatus in a confined space
- ☐ Failure or unsafe condition of fairground equipment in use
- ☐ Collapse or partial collapse of any floor or wall in a workplace
- ☐ Release or escape of flammable substances causing fire or explosion
- ☐ Unintended collapse of any falsework
- ☐ Train / railway incident
- ☐ Pipeline or pipeline works incident
- ☐ Offshore installation or well incident
- ☐ Diving incident
- ☐ Mine or quarry incident

■ Other dangerous occurrence (specify below)

If 'Other', specify: _____

Chapter 10: Dangerous Occurrence (continued)

Persons at Risk

Were any persons in the area at the time?

- ☐ Yes
- ☐ No

Number of persons potentially at risk: _____

Nearest person — estimated distance from event: _____

Equipment / Plant Involved

Equipment Name / Type: _____

Manufacturer / Model: _____

Serial Number / Asset ID: _____

Date of Last Inspection: _____

Inspection Certificate Valid? (Y/N): _____

Competent Person Who Inspected: _____

Potential Consequences — What Could Have Happened?

- | | |
|--|---|
| ☐ Fatality — single | ☐ Fatality — multiple |
| ☐ Major injury — single | ☐ Major injury — multiple |
| ☐ Environmental contamination | ☐ Structural collapse — wider area |
| ☐ Fire / explosion — wider area | ☐ Public at risk |

Immediate Actions Taken

- | | |
|--|--|
| ☐ Area evacuated | ☐ Area cordoned off / barricaded |
| ☐ Emergency services called | ☐ HSE notified by phone (0345 300 9923) |
| ☐ Equipment isolated / locked out | ☐ Structural engineer called |
| ☐ Environmental containment | ☐ Work stopped — all areas |
| ☐ Work stopped — affected area only | ☐ Temporary shoring / support installed |

HSE Notification Record

HSE notified by phone — Date: _____

HSE notified by phone — Time: _____

HSE reference number: _____

Person who called HSE: _____

Written report submitted — Date: _____

RIDDOR online reference: _____

Contributing Factors (tick all that apply)

- | | |
|--|--|
| ☐ Equipment failure / fatigue | ☐ Overloading beyond rated capacity |
| ☐ Inadequate maintenance / inspection | ☐ Corrosion / deterioration |
| ☐ Design defect | ☐ Installation error |
| ☐ Operator error | ☐ Failure to follow safe system of work |
| ☐ Inadequate risk assessment | ☐ Weather conditions |
| ☐ Ground conditions | ☐ Third-party interference |
| ☐ Inadequate supervision | ☐ Change management failure |
| ☐ Other (specify below) | |
| If 'Other', specify: _____ | |

Suggested Prevention Measures

Describe actions to prevent recurrence.

Severity Classification (tick one)

Select the most appropriate severity level for this incident

- ☐ 1 — Critical (life-threatening / fatality)
- ☐ 2 — Major (hospitalization / permanent disability)
- ☐ 3 — Moderate (medical treatment beyond first aid)
- ☐ 4 — Minor (first aid only)
- ☐ 5 — Insignificant (no treatment needed)

Witnesses

Witness 1 Name: _____

Contact: _____

Witness 2 Name: _____

Contact: _____

Witness 3 Name: _____

Contact: _____

Reporter Signature: _____

Date: _____

Supervisor Signature: _____

Date: _____

Appendix A: OSHA 300 Log — Quick Reference

Summary of OSHA Form 300 columns for the Log of Work-Related Injuries and Illnesses

Column	Field	Description
A	Case Number	Sequential number assigned to each recordable case
B	Employee Name	Full name of injured/ill employee
C	Job Title	Employee's job title at time of injury/illness
D	Date of Injury	Date the injury occurred or illness was diagnosed
E	Location	Where the event occurred (e.g., Loading dock)
F	Description	Brief description of injury/illness and how it occurred
G	Death	Check if the case resulted in death
H	Days Away	Check if days away from work
I	Restriction/Transfer	Check if job transfer or restriction
J	Other Recordable	Check if other recordable case
K	Days Away Count	Number of calendar days away from work
L	Days Restricted	Number of calendar days of restriction/transfer
M	Injury or Illness	Check: (1) Injury, (2) Skin, (3) Respiratory, (4) Poisoning, (5) Hearing, (6) All other

OSHA Recordability Decision: An injury or illness is recordable if it results in: death, days away from work, restricted work or job transfer, medical treatment beyond first aid, loss of consciousness, or significant injury/illness diagnosed by a physician.

Key Formulas:

$TRIR = (\text{Total Recordable Cases} \times 200,000) / \text{Total Hours Worked}$

$DART = (\text{DART Cases} \times 200,000) / \text{Total Hours Worked}$

$\text{Severity Rate} = (\text{Total Lost Workdays} \times 200,000) / \text{Total Hours Worked}$

Appendix B: RIDDOR Reportable Events — Quick Reference

UK Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013

Specified Injuries (Report Immediately — Without Delay)

- Fractures (other than fingers, thumbs, and toes)
- Amputations of arm, hand, finger, thumb, leg, foot, or toe
- Permanent loss of sight or reduction in sight
- Crush injuries to the head or torso causing damage to brain or internal organs
- Burn injury covering >10% of body or causing significant damage to eyes, respiratory system, or vital organs
- Scalping requiring hospital treatment
- Loss of consciousness caused by head injury or asphyxia
- Any injury arising from working in an enclosed space which leads to hypothermia, heat-induced illness, or requires resuscitation or 24+ hours hospital admission

Over-7-Day Incapacitation (Report Within 15 Days)

Any injury (not a specified injury) that results in the worker being incapacitated for more than 7 consecutive days (not counting the day of the incident).

Reportable Occupational Diseases

- Carpal tunnel syndrome
- Cramp of the hand or forearm (from repetitive work)
- Occupational dermatitis
- Hand-arm vibration syndrome (HAVS)
- Occupational asthma
- Tendonitis or tenosynovitis
- Any occupational cancer
- Any disease attributed to a biological agent

Dangerous Occurrences (Report Immediately — Schedule 2)

- Collapse, overturning, or failure of load-bearing equipment (cranes, lifts, excavators)
- Explosion, collapse, or burst of pressure vessel or associated pipework
- Electrical short circuit or overload causing fire or explosion
- Unintended collapse or partial collapse of a structure (building, scaffold, temporary works)
- Any unintentional explosion or fire that results in stopping normal work for more than 24 hours
- Accidental release of any substance that could cause injury to any person
- Collapse or partial collapse of any scaffold over 5 meters
- Any incident involving a train, mine, quarry, offshore installation, or pipeline

Reporting Timelines

Deaths and Specified Injuries: Report by phone (0345 300 9923) without delay, then follow up with written report within 10 days.

Over-7-Day Incapacitation: Report online within 15 days of the incident.

Occupational Diseases: Report online when diagnosis is confirmed by a doctor.

Dangerous Occurrences: Report by phone without delay, then written report within 10 days.

Report online at: <https://notifications.hse.gov.uk/riddorforms/>
